

## 30 Days--Off The Grid Study Guide

**Directions:** As you watch this movie, **take notes** to help you complete the study guide activities. Please **review the questions and vocabulary** terms first to better help you focus your attention on the important parts of the movie.

Complete this vocabulary matrix by providing **three specific components** for each term: **memory cue** or drawing, a **definition from the context** of the show and **an example** of how the term appeared in the show.

Term	Memory Cue	Definition	Example
Ecological Footprint			
Dancing Rabbit			
Gray Water			
Biodiesel			
Meato			
Humanure			
Dumpster Diving			
Vegan			

# Small Picture Questions

The following 7 questions relate to specific events in the movie.

1. What are the three rules that the participants must agree to follow in this experiment?
2. Approximately how many people live at the Dancing Rabbit?
3. Where is the Dancing Rabbit?
4. How do the inhabitants manage to get around without using fossil fuels?
5. How do the residents handle seemingly normal activities like bathrooms, cleaning up and food preparations differently?
6. Describe to the best of your ability the main characteristics of the male participant.
7. Describe to the best of your ability the main characteristics of the female participant.

# Big Picture Items

**The following questions/tasks require more explaining and a more broad focus than the previous questions. Good Luck!**

1. What are the main reasons that the residents do almost everything by hand?
2. Why do the residents want to live in this different way? Explain.
3. Identify and explain the largest obstacles that each participant had to overcome.
4. Select either character and create a biography page that identifies and explains the level of change that they went through during the course of this experiment.
5. Suggest an alternate Title for this movie and write a brief description of what the show was about.

**Completed projects are due:**
