

Classroom Structure:

Each week will try to be structured similarly.

Mondays and Tuesdays: focus on vocabulary, literacy, reading, writing and listening in science.

Wednesdays and Thursdays: focus on activities and exploration with review.

Fridays: focus on reflection, notebook checks, and assessments.

Grading:

Grades are based on tests, quizzes, and projects. Homework, bell work, notes, and in class assignments will be given throughout each unit and should be kept in your notebook. My experiences have proven students that are not doing their homework and class work, do not perform as well on assessments.

Reassessment:

Available with scheduled arrangements with your teacher.

What are the Procedures for Reassessment?

1. Determine the target you would like reassessed.
2. Practice (see resources on website) until you feel that you are proficient.
3. See me to determine readiness and a reassessment time and date.
4. Get a Lunch pass from the room and remember to bring your lunch down to eat while reassessing.
